**A REVOLUTIONARY
APPROACH TO
WALLING DESIGN AND
CAPABILITIES**

ability to create custom rock structures or refined walling surfaces. With Bomanite's full line of coloration systems available, Bomanite Vertical Systems can be colored to fit any projects.

With the tight deadlines and budget constraints often faced by architects and designers, it is the perfect

Revolutionary

Bomanite Vertical System is a technology combined with lightweight-polymer-modified-mixture to enable workability in vertical surfaces.

Bomanite Vertical Systems is a revolutionary approach to walling design and capabilities.

Bomanite Vertical Systems can refurbish old, worn out surfaces and turn them into a new and exciting expanse of color, pattern, stone, and texture. It can be used on interior or exterior, horizontal surfaces and offers large design capabilities with the

solution. It can take color to new heights, placing vibrant details on walls and other vertical surfaces where color could not be normally placed, allowing for unlimited design potential.

Bomanite Vertical Systems brings your vision to life.

V-Imprint - is the initial addition to Vertical System which, combines the latest technology in lightweight-polymer-modified-wall-mixture renders with the age old beauty of Bomanite Imprinted Surfaces.

Bomanite Vertical Systems are installed by a network of highly skilled, specially trained Bomanite Installers.
